VFX COMPOSITOR
SIMRAN PATTAR

LANGUAGES

English, Punjabi

EXPERIENCE

Future House Studios
COMPOSITOR   Remote

- Episodic work
- Responsible for high-quality compositing for many sequences in Nuke that required greenscreen, roto/paint, set extension and tracking.
- Communicated between compositors and production crew through email and Slack to improve turnaround time on dailies and shots. This includes joining huddles alongside team members to learn the face paced comping need on this project.
- Used ShotGrid to upload work everyday for dallies.
- Shot Review - making sure everything is ready for final review for the supervisor. This includes rendering exr's and checking the plate for colorspace, aspect ratio, alpha mattes, grain, black point, and naming conventions as they are getting ready for final client delivery via Lucid.

Academy of Art University - Studio
X LEAD COMPOSITOR   San Francisco, CA

- Led a team of 5-8 compositors on multiple features and short film projects with IMBD credit
- Responsible for high-quality compositing for many sequences that required greenscreen, roto/paint, wire removal, CG elements, dynamics, 2D/3D tracking, match move, color correction, and breakdowns under tight deadlines
- Initiated communication between compositors and production crew through email and Discord to improve turnaround time on dailies and client meetings
- Use ShotGrid to access files, upload work, and send notes to artists every week for dallies
- Lead Review - making sure everything is ready for final review for the supervisor. This includes checking the plate for colorspace, aspect ratio, alpha mattes, grain, black point, no LUT, no frameburner, breakdowns, and naming conventions as they are getting ready for final client delivery
